Mentor-Mentee Report of Mrityunjoy Sarkar

As a Mentor of 4th Semester Programme students (list attached), I notified them earlier in the class room for conducting a Mentor-Mentee session (2021-2022) on 07.02.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The first and foremost query of the students was regarding the objective questions. They also enquired about the name of good objective books to collect the answers. But I suggested them to collect the model questions of University examinations and then prepare the answers from the text books. In this way, they would be able to make a bank of objective questions and answers. I also assured them of all kind of assistance from my side and the institution. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Sanjay Prasad

Being the Mentor, I had notified the students earlier in the class room for conducting a Mentor-Mentee session (2021-2022) with the 2nd Semester Programme students (list attached) on 08.02.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The primary query of all mentees present was regarding their 2nd Semester University Examination. They were worried about the long question answers consisting of 5 and 10 marks. They enquired about the method of keeping the long answers in mind for a long time. In reply, I insisted them to write the answers several times in their homes after learning the answers. Their other concern was to maintain the time for writing the answers in the examination hall. I suggested them to divide the times according to the marks of the questions. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Sajib Paul

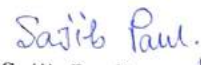

To be noted here that I had notified the students earlier in the class room regarding the Mentor-Mentee session. So, I conducted a Mentor-Mentee session (2021-2022) with the 6th Semester Honours students (list attached) on 11.02.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The primary query of all mentees present was regarding their 6th Semester University examination and whether it was to be held in online mode. I informed them that such a decision could be taken either by affiliating University or the State Government. But I assured them whatever might be the mode of examination, they would get enough time to prepare for the examination. In addition, all kind of examination related assistance would be provided by the department and the institution. Some students informed me about their problems of joining the classes through Google Meet. But I cleared their doubts to a good extent. Though, such type of classes almost had gone over. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Manohar Kumar

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2021-2022) with the 4th Semester Honours students (list attached) on 04.3.2022 at 01.00 p m in room no.4.

Being the first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The primary query of all mentees present was regarding their 4th Semester University examination and whether it was to be held in online mode. I informed them that such a decision could be taken either by affiliating University or the State Government. But I assured them whatever might be the mode of examination, they would get enough time to prepare for the examination. In addition, all kind of examination related assistance would be provided by the department and the institution. Some students expressed their inability to purchase an Android mobile set. But, somehow, I suggested them to purchase it of a low budget and they also agreed. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Mrityunjoy Sarkar

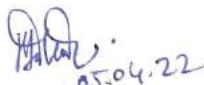

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2021-2022) with the 2nd Semester Honours students (list attached) on 05.4.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The primary query of all mentees present was regarding their 2nd Semester (Honours) University examination and whether it was to be held in online mode. I informed them that such a decision could be taken either by affiliating University or the State Government. But I assured them whatever might be the mode of examination, they would get enough time to prepare for the examination. In addition, all kind of examination related assistance would be provided by the department and the institution. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Sajib Paul

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2021-2022) with the 6th Semester Programme students (list attached) on 06.4.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

In the session, some students expressed their inability to follow the text books in English as I had insisted them in the class room to follow some good and authentic English books besides the Bengali books. In this regard, I suggested them to purchase a dictionary to understand the meaning of tough words. I also told them to come with the English books in the class room so that I could make them understand if any problem arose. In addition, I also assured them of all kind of assistance from the department and the institution. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or h

Mentor-Mentee Report of Sajib Paul

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 5th Semester Programme students (list attached) on 15.7.2022 at 01.00 p m in room no.4.

In the session, a good number of students informed me about their previous results where they were found to be wanting. They also asked me to share my views about the Indian educational system, where a student's intelligence and performance were thought to be mostly determined by their grades and extracurricular activities were viewed as a detour from academics. I said them that grade system reduces the pressure of examination and performances of the students to a considerable level. It also reduces and avoids comparison with toppers eventually. It gives an idea of the strength and weakness of a student with respect to respective subjects. It provides different grading points to evaluate each student's capability, talent, intellectuality and adaptability mathematically. It builds students confidence and prepare them to work harder on their weaknesses. It makes the whole class feel at ease with the newly proposed educational system and copes with the advanced patterns. It leads the entire educational ground to a world-class integrated and uniform standard. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Manohar Kumar

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the Ist Semester Honours students (list attached) on 03.8.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The primary query of all mentees present was regarding their Ist Semester (Honours) University examination. Most of them were curious to know about the pattern of question papers, division of marks of the questions and methods of writing the good answers in the examination. I satisfied them by answering their all queries and particularly told them to practice writing the answers in their homes. In addition, I assured them about all kind of assistance regarding examination related and other problems. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Dr. Sanjay Prasad

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 5th Semester Honours students (list attached) on 08.8.2022 at 01.00 p m in room no.4.

As most of the students of this locality do come from rural areas, they are found to be hesitant in sharing their problems in the Mentor-Mentee session. But as usual I assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

In the session, some of the students informed me about the reasons of their late coming to the classes due to attending private tuitions. I vehemently asked them to leave the tuition classes and join the classes in the college regularly as it will neither help them to improve their subject knowledge nor satisfy the percentage of attendance required by the University. I also proposed to provide them extra time to excel their performance. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

1st SEMESTER (P)

Mentor-Mentee Report of Manohar Kumar

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 1st Semester Programme students (list attached) on 10.8.2022 at 01.00 p m in room no.4.

As this was their first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I started by giving them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

The primary query of all mentees present was regarding their Ist Semester (Programme) University examination. Most of them were curious to know about the pattern of question papers, division of marks of the questions and methods of writing the good answers. I satisfied them by answering their all queries and particularly told them to practice writing the answers in their homes. In addition, I assured them about all kind of assistance regarding examination related and other problems. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Manohar Kumar

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 3rd Semester Honours students (list attached) on 13.9.2022 at 01.00 p m in room no.4.

Though it was not the first Mentor-Mentee session, the Mentees were initially reluctant to share their problems. I further provided them an idea of the concept of Mentor-Mentee and assured them that they could share their problems, academic or otherwise, with me and clear their doubts and queries. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

In the session, some students expressed their inability to attend the classes as they belonged to the peasant family and were bound to work in the field along with their family members. In fact, in this locality, the students are found to sow the paddy seeds in the field in the rainy season as it is considered a very high time for this purpose. Despite knowing this fact that they are bound to work in the field for some days, I insisted them to manage the classes and collect the materials from their class mates. Besides, I assured them of all kind of assistance from my side and the department. The Mentees had no other query or problem to share or discuss on that day.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Manohar Kumar

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 3rd Semester Programme students (list attached) on 14.10.2022 at 01.00 p m in room no.4.

Though they had attended the Mentor-Mentee session earlier, but they were hesitating to share their problems. But I told them that being their Mentor, they could share their problems, academic or otherwise with me in the session. Then some students started to share their problems. Some of them confirmed that they would ask me for a private session if they felt the need at a later date.

The most important question which surfaced in the session from most of the students was the habit of rote learning without understanding the subject matter. They informed me about the development of this habit since the school days. I asked them to go through the books properly and follow the classes regularly to overcome this problem. I also conveyed them that without understanding the subject matter, rote learning would not be holistic and they would lose their focus very fast. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Dr. Sanjay Prasad

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 6th Semester Honours students (list attached) on 07.01.2023 at 01.00 p m in room no.4.

Being the senior most students of the department, most of them participated in the session very freely. In the session, they neither asked me about the text books or university examinations. Rather, they seemed worried about their future plan. For example, some of them were planning to pursue the higher education like Post Graduation while others were contemplating to go for professional courses like B. Ed. and others. I said them to sit down calmly and properly and forbade them to worry.

I said them that they could get admitted in any one of the universities of West Bengal such as Bankura University, Burdwan University etc. for higher education such as Master's degree. If it was possible, they could go to Calcutta and Jadavpur universities for the same. In that case they could get admitted in B. Ed. College later on, if they liked to pursue teaching line. In other scenario, they could do it reverse. If not, they had ample scope of appearing in competitive examinations such as Railways, Banks, Defence, and Public Service Commission of different states including West Bengal and others after the completion of Under Graduate courses. On learning this, they were found to be relaxed to a great extent. The Mentees had no other query or problem to share or discuss.

Nevertheless, before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

2ND SEMESTER (H)

Mentor-Mentee Report of Mrityunjoy Sarkar

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 2nd Semester Honours students (list attached) on 04.02.2023 at 01.00 p m in room no.4.

It has often been found in the Mentor-Mentee session of the History students that they are reluctant to share their problems or they are not very expressive while there comes the question of presenting or sharing their problems. But I met with them like a friend, philosopher and guide which made them somehow relaxed to some extent. I also asked them if they required a separate session for individual and private discussion. They confirmed that they would ask me for a private session if they felt the need at a later date.

In this session, most of the students expressed their unhappiness about the non-availability of the computers in the History department. They started to count the advantages of computers, had it been with the department. They said that they could have saved huge data within a low budget. They could have collected information regarding ancient historical sites. They also informed me that they needed to go to Saltora market for collecting the Xerox papers of their testimonials or taking prints of the necessary documents. I assured them the college was trying its level best to collect the computers and provide it to all the departments very soon. Besides, I told them that there were some computers in college office and library, where they could meet their immediate demands. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Sajib Paul

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 6th Semester Programme students (list attached) on 20.02.2023 at 01.00 p m in room no.4.

Being the senior most students of the department, most of them participated in the session very freely. In the session, they neither asked me about the text books or university examinations. Rather, they seemed worried about their future plan. For example, some of them were planning to pursue the higher education like Post Graduation while others were contemplating to go for professional courses like B. Ed. and others. I said them to sit down calmly and properly and forbade them to worry.

I said them that they could get admitted in any one of the B. Ed. Colleges of the Bankura University and Burdwan University after the completion of Under Graduate course. If it was possible, they could go to Calcutta and Jadavpur universities for the same. If not, they had ample scope of appearing in competitive examinations such as Railways, Banks, Defence, and Public Service Commission of different states including West Bengal and other after the completion of Under Graduate courses. On learning this, they were found to be relaxed to a great extent. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.

Mentor-Mentee Report of Dr. Sanjay Prasad

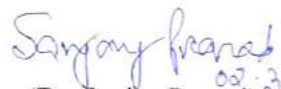

As the students were notified earlier in the class room, I conducted a Mentor-Mentee session (2022-2023) with the 4th Semester Programme students (list attached) on 02.3.2023 at 01.00 p m in room no.4.

Though these students had participated in the Mentor-Mentee session earlier, they often hesitate to be a party in it. Nevertheless, my insistence forced them to express their views or share their problems, academic or otherwise. I also told them that if they needed to share their problems privately, I will be available there. They confirmed that they would not only participate in this session from the core of their heart but also ask me for a private session if they felt the need at a later date.

In this session, most of the girl students regretted the lack of girls' toilet in the college. They informed me that on the ground floor, there was only one girl's toilet and in the first floor, the girls' toilet was adjacent to the boys' toilet. So, in the toilet of first floor, girls needed to wait for their term to get relieved. And as the toilet of second floor was near the boy's toilet, they felt uneasy to use it. In this regard, I assured them that the local Saltora Panchayat was going to construct a big toilet complex for the girls in the ground floor very soon. I forbade them not to worry in this regard. Some other students enquired about the author's name of the History of America and I told them those names. The Mentees had no other query or problem to share or discuss.

Before concluding the session, I insisted them to attend the classes regularly. They assured me that they would attend the classes regularly and would also contact me for any kind of support or help.
