Mentor-Mentee Progress Report
Academic Session-2021-22
Working period (March, 22 – June, 22)

Objective of the Mentor-Mentee System:

It is our policy to entertain the hopes and aspirations of students irrespective of caste, sex, religion, and financial background. Mentoring students

- To enhance teacher-student contact hours
- To enhance students' academic performance and attendance
- To minimize student dropout rates.
- To identify and understand the status of slow learners and encourage advanced learners
- To render equitable service to students.
- To emphasize the smooth functioning of the students - teachers interaction

Activity of Mentor-Mentee System

- All possible steps have been taken by the Department of Philosophy to reach out to everyone and every student enrolled in Philosophy.
- Student WhatsApp. Groups and Google Meet have been used by the Department for mentoring the needy student or in the situations required. Representatives have been appointed to each group which makes student mentoring more effective.
- Guidance provided with Study materials to prepare Project, Assignments and Answers.

Result

We are very satisfied that the advanced learner and comparatively more aware students successfully utilized the maximum opportunity of mentor- mentee system and willingly participate in the cocurricular and academic activities.

We identify the slow learner and absentees. They feel indifferent and still ignorant about their courses that they go through. In the matter of choosing subject options during the online admission or enrollment they feel uncomfortable and so become dependent on the cybercafé owner than us. As an absentee they are not familiar about the official help line and the mentor – mentee system as well.

We contact the absentees and arrange the final meeting with the mentees on the eve of End Semester. Mentors motivated them and boosted up their courage for the final Exam.

Activity of Mentor-Mentee System

- All possible steps have been taken by the Department of Philosophy to reach out to everyone and every student enrolled in Philosophy.
- Student WhatsApp. Groups and Google Meet have been used by the Department for mentoring the needy student or in the situations required. Representatives have been appointed to each group which makes student mentoring more effective.
- Guidance provided with Study materials to prepare Project, Assignments and Answers and issues related Internal Assessment.
- Mentor guided students for Student Seminar, Debate and Quiz competitions.
- Conducting Remedial Classes.

Observation

We are very satisfied that the advanced learner and comparatively more aware students successfully utilized the maximum opportunity of mentor- mentee system and willingly participate in the cocurricular and academic activities.

We identify the slow learner and absentees. They feel indifferent and still ignorant about their courses that they go through. In the matter of choosing subject options during the online admission or enrollment they feel uncomfortable and so become dependent on the cybercafé owner than us. As an absentee they are not familiar about the official help line and the mentor - mentee system as well.

Action taken:

We contact the absentees over telephone and try to motivated them to come to the college, if there are some valid reasons of absence then we provide them Study materials as they required.

College centrally arrange Remedial Classes, especially, for the slow learners.

After completion of Internal Assessment and Syllabus department have been organized the final Mentor-Mentee meeting on the eve of End Semester.

In this meeting Mentors motivated them and boosted up their courage for the preparation of final Exam.

After the final meet Mentees may contact their respective mentors for resolving their difficulties regarding personal or academic level. Students are advised to keep in constant touch with their respective mentors.

Individual Reports of final Mentor- Mentee Meeting, submitted by the Mentors, are given here date wise.
